

TERMS OF REFERENCE

September 2017 - September 2018

Boccia Ireland is an official sub-committee of Paralympics Ireland

Approved by the Paralympics Ireland Board and effective from 13th September, 2017

1. INTRODUCTION

The sport of boccia had previously been governed by Cerebral Palsy Sport Ireland (CPSI) since its introduction to Ireland in the 1980's. The sport is unique to the Paralympic Games and is played primarily by athletes with high levels of cerebral palsy and other similar conditions. The sport has traditionally been a medal winning sport for Ireland at Paralympic Games.

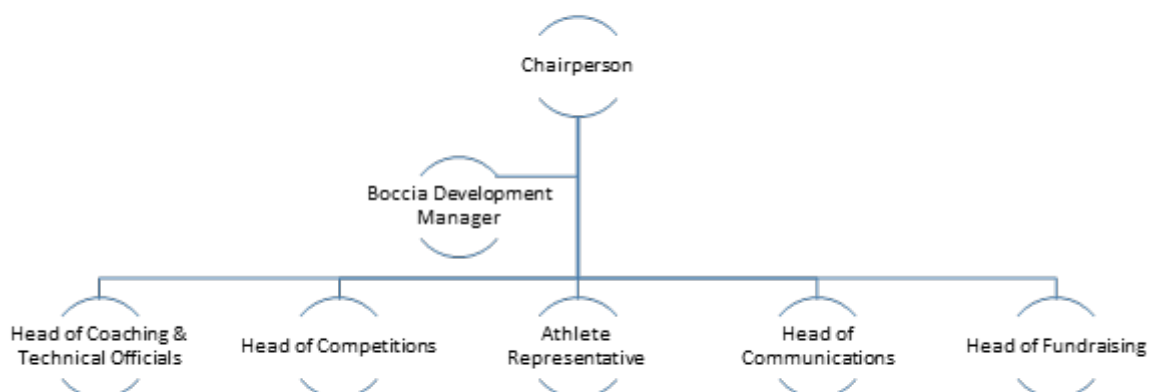

In 2015, CPSI entered liquidation. In consultation with arrange of stakeholders it was agreed that the sport would seek to become an independent autonomous NGB by 2021. To facilitate this in the interim period, Paralympics Ireland would become the National Member in Ireland of Boccia International Sports Federation (BISFED) and govern the sport as an Official Sub-Committee of Paralympics Ireland called Boccia Ireland. This document is the Interim Terms of Reference for Boccia Ireland for the period of September 2017 to September 2018.
